## Esperion Therapeutics Added to the NASDAQ Biotechnology Index

PLYMOUTH, Mich.--(BUSINESS WIRE)-- Esperion Therapeutics, Inc. (Nasdaq: ESPR), a clinical-stage biopharmaceutical company focused on developing and commercializing first-in-class, oral, low-density lipoprotein cholesterol (LDL-C) lowering therapies for the treatment of hypercholesterolemia, today announced that the company has been added to the NASDAQ Biotechnology Index (NASDAQ: NBI) effective prior to the market open on December 23, 2013. The Index is designed to track the performance of a set of securities listed on The NASDAQ Stock Market(R) (NASDAQ(R)) that are classified as either biotechnology or pharmaceutical according to the Industry Classification Benchmark (ICB). This is the most recent index to which the company has been added in 2013. The company is also included in the Russell Global, 3000, 2000, and Microcap indices, and the MSCI Global Micro Cap indices.

### About Esperion Therapeutics

Esperion Therapeutics, Inc. is a biopharmaceutical company focused on the research, development and commercialization of therapies for the treatment of patients with elevated levels of low-density lipoprotein cholesterol (LDL-C) and other cardiometabolic risk factors. ETC-1002, Esperion's lead product candidate, is a unique, first-in-class, orally available, once-daily small molecule therapy designed to lower levels of LDL-C and to avoid side effects associated with existing LDL-C lowering therapies. ETC-1002 is targeted for statin intolerant patients with elevated levels of LDL-C. Esperion has completed seven clinical studies to date, including four Phase 2a studies, and has initiated a robust Phase 2b clinical program. For more information, please visit [www.esperion.com](http://www.esperion.com).

### Forward Looking Statements

This press release contains forward-looking statements that are made pursuant to the safe harbor provisions of the federal securities laws, including statements regarding the therapeutic potential of ETC-1002. Any statements contained in this press release that are not statements of historical fact may be deemed to be forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause Esperion's actual results to differ significantly from those projected, including, without limitation, the risk that unanticipated developments could interfere with the development (and commercialization) of ETC-1002, as well as other risks detailed in Esperion's filings with the Securities and Exchange Commission, including our Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on November 6, 2013. You are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date of this release. Esperion disclaims any obligation or undertaking to update or revise any forward-looking statements contained in this press release, other than to the extent required by law.
